Formulas

Lubricants are used during intimate moments. The use of lubricants can enhance the pleasure and make intimacy more comfortable. Cobeco Pharma offers different types of lubricants.

Personal lubricants

Water-based lubricants - Regular

B322

Water-based Lubricant

The water-based lubricant provides natural pleasure thanks to its unique gliding texture. The lubricant has a hydrating and moisturizing effect that complements the natural body moisture. This way, the lubricant provides more comfort during intimate moments. The water-based lubricant has an easy-to-spread and gliding texture, so you can enjoy it better and more intensely.

B314.1

Extra Thick Water-based Lubricant

The extra thick water-based lubricant is an extra thick gel specially made to increase the sensual experience during intense, intimate activities. With this water-based gel, you experience longer comfort and more pleasure due to the continuous wonderful gliding feeling and the skin smoothing and moisturizing effect. The extra thick water-based lubricant provides more comfortable pleasure during intimate moments.

Water-based lubricants - Special

B323.1

2-in-1 Water-based Lubricant

The 2-in-1 water-based lubricant is a multipurpose moisturizing water-based lubricant with the unique properties of a silicone-based lubricant. It is specially developed for multifunctional use as a massage gel and lubricant. Thanks to its special formula, this lubricant lasts longer on the skin and has a hydrating and moisturizing effect, providing an infinite sliding and extra sensitive feeling. The moisturizing formula is pH-friendly to help maintain the balance. The 2-in-1 water-based lubricant assures you of an intimate massage with a sensational happy ending and experience more pleasure together.

B280

White Water-based Lubricant

The white water-based lubricant is a water-based gel that adds a sensual experience due to the natural white color of the gel. The white color simulates sperm in a realistic way, keeping the focus unchanged on each other. The white water-based lubricant spreads easily over the skin and ensures an intense and sensual feeling.

B904

Cooling Water-based Lubricant

The cooling water-based lubricant is an intimate water-based lubricant with a tingling cooling effect on the skin. The cooling effect stimulates the most sensitive parts of the body and spreads easily for an extra sensual experience. This lubricant complements the natural body moisture for more comfort during intimate moments. The cooling water-based lubricant provides tingling pleasure to increase the sensual experience.

Water-based lubricants - Special

B318.1 Warming Water-based Lubricant

The warming water-based lubricant is an intimate water-based lubricant with a wonderful warming effect on the skin. The warming effect stimulates the most sensitive parts of the body and easily spreads so that you can get into a sensual mood. This lubricant complements the natural body moisture for more comfort during intimate moments. The warming water-based lubricant provides wonderfully exciting pleasure.

V
PH

B326 Anal Thick Water-based Lubricant

Anal thick water-based lubricant is a special water-based intimate lubricant with an extra thick and gliding texture. Thanks to this specific texture, the lubricant is especially suitable for anal use. The lubricant is dermatologically tested and has a hydrating and moisturizing effect, that complements the natural body moisture. This way, you experience more comfort and pleasure during intimate moments. With the anal thick water-based lubricant, you can enjoy anal pleasure with your partner.

V
PH

B318.2 Extra Warming Water-based Lubricant

The extra warming lubricant water-based is an intimate water-based lubricant with an intensified pleasurable warming effect on the skin. The extra warming effect stimulates the most sensitive parts of the body and easily spreads so that you can get into an extra sensual mood. This lubricant complements the natural body moisture for more comfort during intimate moments. The extra warming water-based lubricant provides extra hot pleasure.

V
PH

B174.1 Anal Relax Water-based Lubricant

The anal relax water-based lubricant is an intimate water-based lubricant with a light cooling effect that provides ultimate relaxation and more pleasure during anal intercourse. This lubricant with nourishing ingredients complements the natural body moisture and has a thick and gliding texture for more comfort during intimate moments. With the anal relax water-based lubricant, you will experience more relaxation and sensational anal pleasure.

Formulas

Lubricants are used during intimate moments. The use of lubricants can enhance the pleasure and make intimacy more comfortable. Cobeco Pharma offers different types of lubricants.

Personal lubricants

Flavoured lubricants

B298.1

Aloe Vera Water-based Lubricant

The aloe vera water-based lubricant is an intimate water-based lubricant with a fresh and subtle aloe vera fragrance. The aloe vera has a calming and soothing effect on the skin. This allows you both to experience more comfort and relaxation during intimate moments. This way, you experience intense pleasure together without any worry.

B331

Aloe Vera Thick Water-based Lubricant

The aloe vera thick water-based lubricant is an intimate water-based lubricant with a fresh and subtle aloe vera fragrance and an extra thick and gliding texture. The aloe vera has a calming and soothing effect on the skin. The lubricant provides more comfort and pleasure due to the continuous gliding feeling and the skin-soothing and moisturizing effect. This way, you experience intense pleasure together with more comfort during intimate moments.

B327

Cannabis Water-based Lubricant

The cannabis water-based lubricant is an intimate water-based lubricant with the addition of hemp seed oil from the Cannabis Sativa plant. Experience more natural pleasure and comfort because this oil is rich in fatty acids and functions as a natural humectant. The hydrating and moisturizing effect complements the natural body moisture. With the cannabis water-based lubricant, you enjoy passionate and mind-blowing intimate moments.

B334

Cannabidiol Water-based Lubricant

The cannabidiol lubricant water-based is infused with the special ingredient cannabidiol to improve pleasure during intimate moments. Cannabidiol protects the skin and keeps it in good condition to strengthen the hydrating and moisturizing effect of this lubricant. Thanks to these effects and the soft texture, the cannabidiol lubricant water-based complements the natural body moisture and provides more comfort and relaxation during intimacy.

B297.1

Cherry Water-based Lubricant

The cherry water-based lubricant with the sweet taste of sensual cherry provides more tasty pleasure. This intimate water-based lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. The cherry water-based lubricant glides smoothly over the skin, which makes you experience pure sensual pleasure.

B018.1

Chocolate Water-based Lubricant

The chocolate water-based lubricant is an intimate water-based with a hint of sensual chocolate. The chocolate taste stimulates the taste buds sensually and makes you desire more. This ensures that you cannot keep your hands off each other and experience more pleasure together. The lubricant has a hydrating and moisturizing effect with an easily spreadable texture for enjoyable use during intimate moments. The chocolate water-based lubricant makes desire you more sensual pleasure.

B021.1

Forest Fruit Water-based Lubricant

The forest fruit water-based lubricant has a sweet flavor of mixed berries. This intimate water-based lubricant makes you want to taste more of each other and so increases the passion. With a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. The forest fruit water-based lubricant glides smoothly over the skin, letting you experience more intense sensual pleasure together.

B328

Guarana Water-based Lubricant

The guarana water-based lubricant is an intimate water-based lubricant that provides natural pleasure through the addition of Guarana extract. Guarana contains natural caffeine, which is known for its energizing properties and also improves skin qualities, thanks to its tonic properties. The guarana water-based lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments.

B193

Monoi Water-based Lubricant

The monoi water-based lubricant has the captivating scent of monoi oil. This intimate water-based lubricant takes you and your partner into a tropical, hot atmosphere full of sensual pleasure. The texture is easy to spread, allowing the lubricant to glide smoothly and sensually over the skin. The lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. Experience how the monoi water-based lubricant captivates you and keeps you longing for more tropical hot pleasure.

B299.1

Passion Fruit Water-based Lubricant

The passion fruit water-based lubricant brings extra passion during intimate moments through the tasty flavor of passion fruit. This intimate water-based lubricant makes you want to taste more of each other and so increases the passion. With a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. The passion fruit water-based lubricant glides smoothly over the skin, letting you experience more intense sensual pleasure.

B019.1

Vanilla Water-based Lubricant

The vanilla water-based lubricant, with an exotic touch of seductive vanilla aroma, is an intimate water-based lubricant that gives an exciting twist to the moment and stimulates the senses in a sensual way so that you experience more intense pleasure together. The hydrating and moisturizing effect of the lubricant provides more comfort during intimate moments. With the vanilla water-based lubricant, you can't resist the temptation to taste more of each other.

B301.1

Pina Colada Water-based Lubricant

The pina colada water-based lubricant with the summery sweet flavor of pineapple and coconut provides more tasty pleasure. This intimate water-based lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. The pina colada water-based lubricant glides smoothly over the skin, which makes you experience pure sensual pleasure.

B317.2

Strawberry Water-based Lubricant

The strawberry water-based lubricant has a sweet touch of seductive strawberries. This intimate water-based lubricant gives an exciting twist to the moment and stimulates the senses in a sensual way so that you experience more intense pleasure together. The hydrating and moisturizing effect of the lubricant provides more comfort during intimate moments. With the strawberry water-based lubricant, you can't resist the temptation to taste more of each other.

Formulas

Lubricants are used during intimate moments. The use of lubricants can enhance the pleasure and make intimacy more comfortable. Cobeco Pharma offers different types of lubricants.

Personal lubricants

Silicone-based lubricants - Regular

B015

Silicone-based Lubricant

The silicone-based lubricant is an intimate silicone-based lubricant with a moisturizing effect and a characteristic gliding and silky soft texture, which stimulates the senses extra. This lubricant complements the natural body moisture so that you experience more comfort during intimate moments. Thanks to the silicone, the lubricant does not get absorbed into the skin for long-lasting pleasure. The silicone-based lubricant does not dissolve in water and can therefore also be used in the shower or bath.

B040

Thin Silicone-based Lubricant

The thin silicone-based lubricant is an intimate silicone-based lubricant with an extra thin texture. Experience a sensational skin-to-skin feeling in a unique way. The silicone gives a long-lasting gliding and silky soft feeling because it stays longer on the skin. The lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. The silky soft feeling of the thin silicone-based lubricant makes you want to keep touching without getting distracted by a thick layer of lubricant.

Silicone-based lubricants - Special

B903

Cooling Silicone-based Lubricant

The cooling silicone-based lubricant has a tingling cooling effect on the skin. The cooling effect of this intimate silicone-based lubricant stimulates the most sensitive parts of the body that gets you in an extra sensual mood. The lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. It stays longer on the skin and does not get absorbed so you can enjoy it for an extra long time, as well as in the shower or bath.

B902

Warming Silicone-based Lubricant

The warming silicone-based lubricant has a wonderful warming effect on the skin. The warming effect of this intimate silicone-based lubricant stimulates the most sensitive parts of the body for a pleasant sensual experience. The lubricant has a hydrating and moisturizing effect that complements the natural body moisture during intimate moments. It does not get absorbed into the skin so you can enjoy it for an extra long time, as well as in the shower or bath.

Jar lubricants

B304 Butter Oil-based Lubricant

The butter oil-based lubricant is a thick oil-based butter specially designed to increase the sensual experience. The unique buttery and thick texture stays longer on the skin and therefore gives a long-lasting gliding feeling. The butter has a moisturizing effect and smooths the skin. Thanks to the butter oil-based lubricant, you will experience more and longer comfort during intense intimate moments for endless sensual pleasure.

V
PH

B664 Powder Lubricant

The powder lubricant is a unique concentrated powder that transforms into a sensational intimate massage gel after adding water. The massage gel provides a sliding feeling and can be used for full-body massages and as an intimate lubricant. The massage gel is easy to make and can be mixed to a thickness to your liking. The powder lubricant provides a sensational intimate full body massage with extra intense pleasure.

V
PH

B185 Cream White Lubricant

The cream white lubricant is a special silicone-based white cream with an amazingly soft and gliding feeling on the skin. The nourishing and moisturizing effect of the slightly thicker cream makes the skin extra supple and provides more comfort during intense intimate moments with increased pleasure.

V
PH

B190 Extra Thick White Water-based Lubricant

The extra thick white water-based lubricant is a water-based gel with an extra thick texture and a natural white color. With the moisturizing effect, you experience more gliding comfort, and you can continue to enjoy it non-stop. The natural white color of the extra thick white water-based lubricant realistically simulates sperm, adding a sensual experience to the intimate moment.

V
PH

Natural lubricants

B330.1 100% Natural Water-based Lubricant

The 100% natural water-based lubricant is an intimate water-based lubricant with 100% natural and vegan ingredients, without synthetic fragrances, colors and flavors. The lubricant is certified by the BDIH as 100% natural according to the "Natural Product Standard". The hydrating and moisturizing effect complements the natural body moisture for more comfort and sensation during intimate moments.

V
PH
🌿

B332 Glycerine Free Water-based Lubricant

The glycerin free lubricant has a hydrating and moisturizing effect and is free of glycerin. It gives more comfort during intimate moments and complements the natural body moisture, which makes the intimate moment more intense. The glycerine free water-based lubricant makes you experience intense pleasure together without any worry.

Formulas

B701 | **Clove Delay Spray**

The clove delay spray, with clove oil as a unique addition, is a nourishing spray that provides a cooling effect on the skin of the penis. Clove has been used for centuries as a home remedy like toothache, but it can also contribute to preventing premature ejaculation. Thanks to its cooling and nourishing effect, the clove delay spray helps to delay the ejaculation. This allows you to experience longer and more intense pleasure.

B002 | **Delay Spray**

The delay spray is a nourishing spray that helps to delay the ejaculation, thanks to the slight cooling effect of the spray on the most sensitive parts of the penis. Thanks to the cooling effect, the spray contributes to a longer performance and more sensational pleasure. The delay spray supports the prevention of premature ejaculation during intimate moments and gives you the feeling of control. This way, you can enjoy yourself with your partner carefree and more intensely.

B157 | **Delay Spray Warming**

The delay spray warming gives a warming sensation on the penis with a nourishing effect. The spray is based on natural ingredients that can help delay the ejaculation. This way, the delay spray warming ensures you can enjoy wonderful intimate moments for an extra-long time.

B171 | **Delay Cream**

The delay cream is a slightly cooling cream that can help to delay the ejaculation. The cream has a nourishing and softening effect and is easy to spread. This delay cream can give you more control over the moment of ejaculation to give you longer and more intense pleasure during intimate moments.

B158 | **Delay Spray Cooling**

The delay spray cooling is a nourishing spray with a refreshing effect for a cooling sensation on the penis. The spray has a nourishing effect and is based on natural ingredients, with which the spray contributes to delaying the ejaculation. Enjoy extra long with the delay spray cooling for more sensational pleasure.

B200 | **Delay Gel**

The delay gel is a nourishing and refreshing gel with a slightly cooling effect that can help to delay the ejaculation. The gel has a nourishing effect and is quickly absorbed into the skin. Experience how this Delay Gel can give you control over your climax and enjoy the intimate moment for an extra long time.

B159 | **Delay Spray Strawberry**

The delay spray strawberry is a nourishing spray with a strawberry flavor and a slight cooling effect on the most sensitive parts of the penis to help delay the ejaculation. Thanks to the cooling effect, the spray contributes to a longer performance and more sensational pleasure. The sweet strawberry flavor adds a tasty experience for more tasty pleasure.

B170 Intimate Male Enhancement Lotion

The intimate male enhancement lotion is a nourishing lotion with a thin texture based on natural plant extracts. The lotion has a nourishing and caring effect on the skin of the penis. Thanks to this effect, the flexibility of the skin will be improved, which promotes the sustainment of the erection. The intimate male enhancement lotion makes the skin feel soft and nourished after use.

Formulas

Massage

B301

Neutral Massage Oil

The neutral massage oil is a luxurious neutral massage oil with a unique formula that is rich in nourishing ingredients. The oil has a silky soft texture, easy to apply onto the skin and easy to spread. The nourishing formula leaves the skin feeling nourished and cared for. This way, the neutral massage oil provides a smooth and pleasant body massage.

B035.1

Warming Massage Oil

The warming massage oil has a unique formula that is rich in nourishing ingredients with a warming effect. The warming effect of this massage oil provides a relaxing sensation on the skin to increase the sensual experience. The oil has a silky soft texture, is easy to apply onto the skin, and is easy to spread. The nourishing formula leaves the skin feeling nourished and cared for. Thanks to the warming massage oil, body massages will be more sensual than ever.

B033.1

Sensual Massage Oil - Secret

The sensual massage oil - secret has a sweet and spicy scent for a sensual experience. This massage oil has a silky soft texture that is easy to spread onto the skin and provides a smooth and gliding feeling. The sensual massage oil - secret promises you an intimate and sensual body massages.

B175

Chocolate Body Paint

The chocolate body paint adds extra creativity and excitement to intimate moments. Be a true artist as you decorate your partner into a delicious piece of art. This body paint with high-quality chocolate is edible and can be used all over the body. Use your tongue to remove the chocolate body paint from your partner's body for more desire and pleasure.

B192

Slippery Nuru Massage Gel

The slippery nuru massage gel is an intimate massage gel with a unique sliding texture, specially developed for intimate "Nuru" massages. In this Japanese massage technique, the body is slid against the partner's body, with both bodies completely naked and covered with scentless and colorless massage gel. The purpose of a Nuru massage is to have as much physical body contact as possible for an intense body-to-body sensation. The gel is rich in nourishing ingredients that moisturize the skin and make it supple. The slippery nuru massage gel ensures a sensual experience during Nuru massages.

Formulas

Packaging

Private Label by Cobeco Pharma has many packaging options for you to choose from. This way you can create your perfect private label. If you may not have found your preferred packaging here, please send your request to our sales department.

Primary & secondary

Primary packaging

The primary packaging is the packaging that comes into direct contact with the ingredient. We offer a large assortment with lots of choice; Plastic (PET / HDPE), glass, special flat packages, suitable for web order shipping, sachets and blister packs.

Secondary packaging

The secondary packaging is the packaging that is secondary to the product. It doesn't come into direct contact with the ingredient. We offer secondary packaging options such as labelling, shrink sealing, carton boxes, display boxes, leaflets and gift sets. The carton boxes, display boxes, leaflets and gift sets are all additional options to complete the look of your private label. Carton boxes can give your product a more luxurious appearance. You can print the carton boxes in full colour or optional in metallic colours.

Labeling

Labelling your private label products is required, because the label informs the customers about the ingredients and instructions.

Shrink sealing

At additional costs we can shrink seal your products. With shrink sealing we seal the whole product.

Carton boxes

Carton boxes are optional. You can choose to offer the products in boxes with the same logo and text as the labels on the actual products. Or you can choose for a box with cutaway sides, that will show the product inside the box. Cobeco Pharma will provide you with the technical information and templates after order confirmation.

Display boxes

Display boxes can be used to showcase your products all together and with your logo. Display boxes are ideal to use on a shop counter to show your brand to your customers.

Leaflets

Leaflets are the perfect solution if you would like to add some more information, and/or in different languages. Leaflets can also be used to pay attention to your other products.

Gift sets

We offer the possibility to design and create personal gift sets. It's a nice way to show your customers more than one product of your exclusive product line at once. You have the opportunity to divide the gift boxes to your own wishes.

In the next section we will mainly focus on all the primary packaging options; bottles, jars, tubes sachets and all the closures

Airless

Airless packaging is an innovative dispensing system for gels and cream with many benefits. The airless system keeps oxygen out of the packaging to preserve the active ingredients in the formula. It provides a convenient and precise dispense of the formula and keeps wastage to a minimum. With the airless packaging, your product gets a premium and luxurious look and feel.

Toycleaner

These packaging options are especially suitable for our liquid toy cleaner formulas. You can choose between the compatible regular sprayer or trigger sprayer to provide an easy application of the toy cleaner. Combine the preferred bottle with a sprayer or trigger sprayer to complete the toy cleaner with a look and feel that fits in your brand's concept.

All bottles with the same neck size as the displayed sprayer or trigger sprayer can also be used with a toy cleaner formula.

Quality control

At Cobeco Pharma we stand for quality. We put all the effort needed into it, to make sure that our products, ingredients and packaging meet the most stringent requirements.

To be able to guarantee this, Cobeco Pharma has a quality control department that is checking every quality procedure and assures all requirements meet our quality standards for developing food supplements, cosmetic products and medical devices and packaging to be brought to market in European and outside. Besides this, Cobeco Pharma is a member of various associations and is working according to quality assurance system principles.

Quality assurance

Natuur & gezondheidsproducten Nederland (NPN)

Cobeco Pharma is a member of the Dutch trade organisation Natuur & gezondheidsproducten Nederland (NPN). This organisation and its affiliates stand for the promotion of quality and safety in the field of food supplements.

Keuringsraad KOAG KAG

The Dutch Inspection Board, on behalf of the Foundations (KOAG) and (KAG), supervises public advertising of the healthcare and pharmaceutical industry.

ISO13485

ISO13485 is a standard for medical devices and a quality management system in accordance to which Cobeco Pharma operates and produces.

Good Manufacturing Practice (GMP)

Products have to be produced in accordance to strict requirements. These requirements are called the 'Good Manufacturing Practice' (GMP). Cobeco produces in accordance to the guidelines of GMP. Our staff is especially being trained to produce our products. Because of that, there have been a quality control system and a special designed manufactory.

Nederlandse Cosmetica Vereniging (NCV)

Cobeco Pharma is a member of the Dutch Cosmetics Association called Nederlandse Cosmetica Vereniging (NCV). The NCV is the official trade organisation of manufacturers and importers of cosmetics.

SEDEX

Cobeco Pharma is a member of SEDEX, a non-profit membership organisation dedicated to create improvement in responsible and ethical business practices in global supply chains.

Hazard Analysis Critical Control Points (HACCP)

Cobeco Pharma pursues a quality assurance policy based on the Hazard Analysis of Critical Control Points (HACCP). The entire production process is being monitored to detect potential food safety dangers by the HACCP system.

Cosmetic Products Notification Portal (CPNP)

Cosmetic products are submitted to the Cosmetic Products Notification Portal, to increase the safety of cosmetic products and strengthen market surveillance.

NEW!

Advent calendar selection guide

As we are specialized in developing and producing products for advent calendars, we are happy to help you explore all the possibilities when you start thinking about your advent calendar.

We can offer unlimited options that may fit your brand and calendar theme with festive pleasure products and packaging in different colours and sizes that are optimal for advent calendars. Not only can we offer all the suitable products for the inside, but with our extensive knowledge, we can also advise you on which information is needed on the outside of the advent calendar.

It is advisable to start the preparations for your next advent calendar as early as you can. Delivery times are continuously increasing, so an early start of the preparations and development is crucial to make sure your calendar is ready in time for the next holiday season.
